PRELIMINARY AMENDMENT

Prior to examination of the above-identified application, please
amend the specification and claims as follows:

In the Claims:

Please add new claims 69-99 as set forth below:

69. (New) An electronic projection apparatus for projection of
color images onto a display surface, said apparatus comprising:

(a) a light source which produces a beam of light;
(b) an optical system which separates said beam of light
into separate color beams of light, and which provides beam shaping and focusing
of said color beams of light;

(c) a modulation optical system for each of said color
beams of light, said modulation optical system providing an image bearing color
light beam, and said modulation optical system comprising:

(1) a prepolarizer for prepolarizing one of said colored
beams of light to provide a polarized beam of light
